HURRICANE EVACUATION PICK-UP POINTS

The City of Miami Beach will begin evacuation procedures as soon as there is an evacuation order from Miami-Dade County. If you have not made prior arrangements to stay somewhere off of the island, you are availed the option of going to a County Hurricane evacuation shelter. Free transportation is provided by Miami-Dade Transit buses to the mainland shelters from 21 locations in Miami Beach. Buses that will transport people for hurricane evacuations have a special notice on the front of the bus where the route information is displayed. Please note that pets are not allowed to go to general population shelters and therefore will not be allowed on the bus. Buses run continuous routes until Tropical Storm force winds arrive.

This is NOT a list of evacuation shelters; they are Miami-Dade Transit bus pick-up locations for transportation to shelters. Locations sometimes shift due to construction or other circumstances. For a complete and up-to-date list of evacuation bus stops, call 3-1-1.

Look for the hurricane evacuation signs that are placed at the following addresses:
