

MIAMI BEACH RISING ABOVE

Indian Creek Drive Flooding Mitigation Phase III

Project Advisory - April 2, 2021

Project Overview and Benefits

This project delivers vital improvements to the Indian Creek Drive community by providing new sidewalks, a lighting system and a continuous delineated bicycle path. It will also address flooding within the neighborhood by installing a comprehensive stormwater drainage system, including a water treatment system and generator in case of a power outage. Additionally, the road and sidewalk will be rebuilt at a higher elevation to mitigate sea level rise.

What's Happening

For your safety, please do not enter work zones.

A change order for additional services has been awarded to the contractor. To reduce the overall time of the project and expedite the work, a revised traffic pattern is being considered along Collins Avenue between 26 and 41 streets. More information will be included in future updates.

The following activities are scheduled along Indian Creek Drive and side streets:

- The permitted removal of mangroves is getting underway in preparation for the sheet pile walls installation.
- Roadway and paving operations are continuing along Indian Creek Drive between 37 and 41 streets and along 40, 39, 38 and 37 streets between Indian Creek Drive and Collins Avenue.
- The contractor is completing punch list items throughout this area.

Harmonization work has been completed in the area north of 31 Street to 40 Street. Harmonization work continues between 40 and 41 streets.

Please note, the project team is closely monitoring the situation surrounding COVID-19. The contractor is enforcing strict social distancing measures and employees are required to wear face coverings while on-site, including breaks.

Timeline

The project started in March 2020 and is expected to last two years. Construction work hours are weekdays from 8 a.m. to 6 p.m. Extended time is subject to city approval and community notification. Please note, this schedule may change due to weather or unforeseen circumstances.

What to Expect

- Moderate levels of construction noise is expected during the day.
- Construction equipment, machinery and workers will be present in work zones

An advisory will be issued every two weeks or as changes warrant.

Who to Contact
