EXHIBIT A

1S-2.027 Standards for Determining Voter's Choice on a Ballot.

(1) Application. The standards in this rule apply to determine whether the voter has clearly indicated a definite choice for purposes of counting a vote cast on a ballot in a manual recount as provided specifically by Section 102.166 F.S.

(2) Direct recording electronic voting system.

(a) A vote cast on this voting system is valid for a particular candidate, issue choice, or judicial retention choice when the voter marks the ballot electronically as specified in the ballot instructions.

(b) A vote cast on this voting system is valid for a particular write-in candidate when the voter types on the touch screen the name of a write-in candidate in accordance with the ballot instructions.

(3) Optical scan voting system.

(a) A vote cast on this voting system is valid for a particular candidate, issue choice, or judicial retention choice when the voter marks the ballot as specified in the ballot instructions.

(b) A vote cast on this voting system is valid for a particular write-in candidate when the voter writes in the name of a candidate in the designated write-in space and fills in the oval or arrow next to the write-in candidate's name.

(4) Manual review and tabulation.

(a) The standards under this subsection apply in all instances where a contest is not marked as specified in the ballot instructions under subsection (2) or (3) and a manual review of the voter's markings on a ballot is required to determine whether there is a clear indication that the voter has made a definite choice in a contest.

(b) The canvassing board must first look at the entire ballot for consistency. Then the provisions of paragraph (c) apply to determine whether the voter has made a definite choice in a contest, provided the voter has not marked any other contest on the ballot, or if the voter has marked other contests, he or she has marked them in the same manner, subject to the exceptions in subparagraphs 7., 10., and 15. The following are examples of valid votes after review for consistency:

Lucille Ball
Jack Benny
Desi Arnaz
Benny Bruce

**Commissioner of
Agriculture**
(Vote for one)

Jack Ritter
Audra Lindley
Francis Bavier
Jack Dodson

State Representative
(Vote for one)

Don Nichols
Michael Ross
Bernie West
Norman Fell

*Ballot Situation 1: Recount in race of State Representative.
The two ovals in the first two races are filled in properly,
but the voter has circled the candidate's name in the state
representative race.*

*Since the voter did not mark the state representative race
in the same manner as in the other races, it cannot be
determined whether the voter has clearly indicated a
definite choice for Don Nichols.*

Ballot Situation 2: Recount in race of State Representative. All races on this ballot are marked in the same manner. Since the ballot is consistently marked as in paragraph (c), the vote cast for Michael Ross in the state representative race is a valid vote.

Ballot Situation 3: Recount in State Representative race. Each race is marked differently so that no consistency in marking exists. It cannot be determined which marking, if any, is clearly indicative of the voter's choice. Therefore, the vote cast for Bernie West is not valid.

(c) Subject to the provisions of paragraph (b), the following marks constitute a valid vote as indicated for a particular candidate, issue choice, or judicial retention choice:
