Condensed Title:

A resolution of the Chairperson and Members of the Miami Beach Redevelopment Agency, adopting and appropriating the Miami Beach Redevelopment Agency Capital Budget for Fiscal Year (FY) 2011/12 and adopting the Capital Improvement Plan for FY 2011/12 – 2015/16

Key Intended Outcome Supported:

Ensure well designed quality capital projects -- Increase Community Satisfaction with City Services

Supporting Data (Surveys, Environmental Scan, etc.): Based on the 2007 community survey, recently completed capital projects were highly rated by both residents and businesses. In the 2009 survey, arts and culture were identified as services the city should strive not to reduce; and availability of public parking, was one of the factors identified as key drivers of overall satisfaction levels. The proposed funding for FY 2011/12 includes appropriations for the Bass Museum and Miami City Ballet Renewal and Replacement projects; Botanical Garden (Garden Center) improvements; Collins Park Ancillary improvements; Collins Park Parking Garage design and repayment of land acquisition costs to the Parking Operating Fund in addition to a variety of other important capital improvement projects within the City Center RDA.

Issue:

Should the Chairperson and Members of the Miami Beach Redevelopment Agency (RDA), adopt and appropriate the Miami Beach Redevelopment Agency Capital Budget for FY 2011/12 and adopt the Capital Improvement Plan for FY 2011/12 through 2015/16?

Item Summary/Recommendation:

The CIP was created as a plan for projects that require significant capital investment and is intended to serve as an official statement of public policy regarding long-range physical development in the City of Miami Beach and the Miami Beach RDA, establishing priorities for the upcoming five year period, FY 2011/12 – 2015/16. The first year of the CIP is recommended for approval as the FY 2011/12 Capital Budget.

The Proposed Capital Budget for FY 2011/12 therefore totals \$13,541,301 and the Proposed Capital Budget for the RDA Anchor Garage totals \$75,845.

Advisory Board Recommendation:

On June 30, 2011 and July 29, 2011, the Proposed Capital Budget and updated Capital Improvement Plan were discussed at meetings of the Finance and Citywide Projects Committee and the proposed Capital Budget and CIP reflects the funding recommendations from that meeting.

COMMISSION MEMORANDUM

TO: Chairperson Matti Herrera Bower and Members of the Miami Beach
Redevelopment Agency

FROM: Jorge M. Gonzalez, Executive Director

DATE: September 27, 2011

SUBJECT: **A RESOLUTION OF THE CHAIRPERSON AND MEMBERS OF THE MIAMI BEACH REDEVELOPMENT AGENCY, ADOPTING AND APPROPRIATING THE MIAMI BEACH REDEVELOPMENT AGENCY CAPITAL BUDGET FOR FISCAL YEAR (FY) 2011/12 AND ADOPTING THE CAPITAL IMPROVEMENT PLAN FOR FY 2011/12 – 2015/16**

ADMINISTRATION RECOMMENDATION

Adopt the Resolution.

BACKGROUND

Planning for capital improvements is an ongoing process; as needs change within the City's Redevelopment District (RDA), capital programs and priorities must be adjusted. The Capital Improvement Plan ("CIP") serves as the primary planning tool for systematically identifying, prioritizing and assigning funds to critical City and RDA capital development, improvements and associated needs.

The RDA capital improvement plan process began in the spring when all departments are asked to prepare capital improvement updates and requests on the department's ongoing and proposed capital projects. Individual departments prepare submittals identifying potential funding sources and requesting commitment of funds for their respective projects. The proposed document is reviewed by the City Manager, and upon approval, is submitted to the Finance and Citywide Projects Committee and the City Commission/Redevelopment Agency Board for final approval and adoption.

The CIP was created as a plan for projects that require significant capital investment and is intended to serve as an official statement of public policy regarding long-range physical development in the City of Miami Beach. The CIP specifies and describes the City's capital project plan and establishes priorities for the upcoming five year period.

Individual projects within neighborhood areas have been combined to create "packages" of projects that address the neighborhood needs for infrastructure upgrades, traffic flow, enhancements, etc. This comprehensive approach minimizes disruptions and generates costs savings. The projects address many needs in different areas of the City including: neighborhood enhancements such as landscaping, sidewalk restoration, traffic calming, lighting, parking, water and sewer system improvements, drainage improvements and roadway resurfacing/reconstruction; park renovation and upgrades; and construction or renovation of public facilities.

The Administration is presenting the proposed FY 2011/12 Capital Budget and the updated CIP for FY 2011/12 – 2015/16, following a comprehensive review of the CIP to insure that the Plan accurately reflects all project budgets, funding sources and commitments, for adoption by the City Commission.

ANALYSIS

Capital Improvement Plan

The FY 2011/12 – 2015/16 CIP for the City of Miami Beach and the RDA is a five year plan for public improvements and capital expenditures by the City and the RDA. This document is an official statement of public policy regarding long-range physical development in the City of Miami Beach and the RDA. The approved Capital Improvement Plan has been updated to include projects that will be active during the FY 2011/12 – 2015/16.

The Plan has been updated to include additional funding sources that have become available, changes in project timing, and other adjustments to ongoing projects as they have become better defined. Certain adjustments have been made to reflect projects that have been reconfigured, re-titled, combined with or separated from other projects and/or project groupings and are the result of a comprehensive review of the program to insure that our plan accurately reflects all project budgets, funding sources and commitments.

Capital Budget

The Proposed Capital Budget for the RDA includes \$13,541,301 for projects and capital equipment acquisitions recommended for appropriation in conjunction with the FY 2011/12 Operating Budget. It itemizes project funds to be committed during the upcoming fiscal year detailing expenses for project components which include: architect and engineer, construction, equipment, art in public places, and other related project costs. Additionally, the projected costs of program manager services are included. Capital reserves, debt service payments, and other capital purchases found in the Operating Budget are not included in this budget.

For the first time in Fiscal Year 2012, Capital Renewal and Replacement projects are included as projects in the proposed FY 2011/12 capital budget. The renewal and replacement projects as presented at the July 29, 2011 FCWPC are included with contingency allocated to each project. Renewal and Replacement projects that were approved in prior years but remain active are also included.

On June 30, 2011 and July 29, 2011 the FY 2011/12 Proposed Capital Budget and updated FY 2011/12 – 2015/16 CIP was discussed at meetings of the Finance and Citywide Projects Committee. The Director of Budget and Performance Improvement, Capital Improvement Project Office Director, department directors, and other City staff were available to discuss specific projects and respond to the Committee's questions. The proposed Capital Budget and CIP reflect the funding recommendation from that meeting.

CONCLUSION:

The Administration recommends adoption of the attached Resolution, which establishes the Capital Budget for the RDA for FY 2011/12 and the Capital Improvement Program for FY 2011/12 – 2015/16.
