The purpose of this Letter to Commission (LTC) is to provide an update regarding the Freight Loading Zone Regulations that the Mayor and Commission approved at second and final public hearing on May 28, 2014 (Ordinance No. 2014-3873).

Over the last 90 days, the Parking Department has held 27 meetings or conference calls with a wide variety of purveyors, including food, beverage, dry goods, beer, alcohol, linens, mail/parcel delivery, hotel association, and other support services. In addition, the following meetings were held with many of the same participants, including hotels, restaurants, and representatives from my office:

- On June 30, 2014, a meeting was held with a variety of purveyors and the Ocean Drive Association (ODA).
- On July 2, 2014, the Miami Beach Chamber of Commerce hosted a meeting and the Administration presented the Freight Loading Zone (FLZ) plan to their membership.
- On July 10, 2014, the Miami Beach Chamber of Commerce Board of Governors held their meeting and a similar presentation by the Administration was delivered.

As a result of these meetings, scores of questions were addressed and many concerns were allayed, and valuable insight and feedback was taken into consideration and led to further refinements to the FLZ plan. The following are some examples:

- Select locations with high volume deliveries will have 60 minute FLZ to accommodate either high volume single deliveries or multiple delivery points from the same FLZ.
- Purveyors with multiple delivery points from the same FLZ may exceed the posted time limit (30 or 60 minutes) if actively engaged in loading or unloading. "Active" characteristics include: hazard lights (flashers) on; expeditious loading activity by the driver. Drivers are encouraged to communicate their estimated length of stay to the officer on patrol.
- Adjustments to FLZ locations and hours will be made on a case by case basis. However, in no instance will loading hours commence earlier than 7AM or end later than 8PM unless there are no residential or hotel properties in the vicinity.
- Washington Avenue (proper) will have extended FLZ hours (7AM to 3PM). The
freight loading prohibition between 11AM and to 1PM was rescinded.

- Advance notification to existing commercial loading zone users will take place through placement of a notice on vehicles and deployment of electronic message boards.

- Businesses will coordinate their receipt of goods and services contingent upon need of product or service. There was a commitment expressed on the part of the business community to schedule deliveries later in the day when there is more capacity for freight loading activity.

- Support services (non-freight) for special events, such as catering, music, flowers, etc. will be allowed delivery/pick-up.

- Emergency repairs/services for utilities such as electrical, plumbing, etc. are exempt from the prohibited days/hours.

The Parking Department has developed an informational package (see attached), containing the documents below and it will be provided to purveyors and businesses:

- Attachment 1: Introductory Letter
- Attachment 2: CMB Ordinance No. 2014-3873
- Attachment 3: Freight Loading Zone and Alley Loading Map
- Attachment 4: Sample Regulatory Signs
- Attachment 5: FLZ and AL Permit Application
- Attachment 6: Advance Notification – FLZ/AL
- Attachment 7: Frequently Asked Questions (FAQ)

We are also developing enforcement standard operating procedures and will distribute these once drafted. The aforementioned information will also be available on the City’s website at miamibeachfl.gov and an email address (flzhotline@miamibeachfl.gov) has been established for comments, inquiries, and complaints. The following are threshold dates for implementation and deployment:

Week of July 14th:

- VMS (variable messages signs) on causeways and Art Deco District.
- Distribution of Advance Notification – FLZ/AL Coming Soon Notice.
- Introductory Letter distributed to purveyors/business and available on the City’s website.
- Input and comments from industry and businesses – continued.

Week of July 21st:

- FLZ/AL permit sales - processing purveyor/business FLZ/AL permit applications, including scheduled appointment for purveyors with larger fleets.
- Systematic installation of FLZ/AL signs through the corridor.
Initiatives from the week of July 14th continue.

Input and comments from industry and businesses – continued.

Week of July 28th:

- Begin to issue “Warnings” to vehicles not meeting weight restrictions (<10,000 lbs) at freight loading zones and prohibited freight/alley loading hours by Code Enforcement Department.

- Initiatives from the week of July 14th and July 21st continue (FLZ/AL sign installation completed).

- Input and comments from industry and businesses – continued.

Week of August 4th:

- Warnings – continued.

- Begin “warning period” for moving violations by Police Department.

- Input and comments from industry and businesses – continued.

Week of August 11th:

- Warnings – continued.

- “Warning period” for moving violations by Police Department - continued.

- Input and comments from industry and businesses – continued.

Week of August 18th:

- Warnings – continued.

- “Warning period” for moving violations by Police Department - continued.

- Input and comments from industry and businesses – continued.

Week of August 25th:

- “Warnings - continued.

- Input and comments from industry and businesses – continued.

Week of September 3rd:

- Enforcement of all posted requirements for FLZ/AL permits (commercial vehicle weight restrictions <10,000 lbs; days/hours/time limits, and payment at meter or pay by phone service) at freight loading zones with parking citations (non-moving
• Police Department warning period ends. Begin strict enforcement of double parking (moving violations) by Police Department.

• Code Enforcement Department “warning period” ends. Begin strict enforcement of prohibited loading hours by Code Enforcement Department.

• Input and comments from industry and businesses – continued.

Progress meetings with purveyors, businesses, Ocean Drive Association, Greater Miami and the Beach Hotel Association, and Miami Beach Chamber of Commerce will be held in the month of September. Of course, I will provide further updates through communications such as this one.

If you should have any questions, please contact Saul Frances, Parking Director via email or at extension 6483.

July 14, 2014

RE: FREIGHT LOADING/ALLEY LOADING PROGRAM

Dear Purveyors and Business Owners:

Traffic congestion is a major challenge in the Miami Beach and it has been identified as quality of life issue by residents and other stakeholders. Therefore, your cooperation is essential!

On May 28, 2014, the Mayor and City Commission approved an ordinance with new freight loading regulations which shall commence on August 1, 2014. The City's goal is to facilitate loading activities for purveyors and businesses alike. We recognize our business community's success is directly impacted by their ability to receive goods and services from a variety of purveyors rendering essential services. Moreover, our successful entertainment districts place great demands on purveyors to replenish their supplies, in some cases, daily.

We have met with numerous purveyors and held very fruitful conversations about their operations and challenges as well as our goal to reduce traffic congestion. Without exception, purveyor simply are looking to deliver their good/services in a safe, legal, and expeditious manner. Clearly, the City shares this common goal and with the cooperation of all, we will achieve it.

New Freight Loading Regulations and Enforcement

The Mayor and Commission, City Manager's Office, City Attorney's Office, Parking Department, Public Works Department, Transportation Department, Code Enforcement Department, Fire Department, and Police Department have endorsed the following program as it will serve as a deterrent to traffic congestion. New regulations will be initiated along the Art Deco/Entertainment District (Washington Avenue between 5th Street and 17th Street and between Ocean Drive and Washington Avenue).

Comparable freight loading regulations have been very successful in numerous metropolitan areas throughout the country that rival Miami Beach's density and level of activity. A key component is the comprehensive approach for both commercial vehicles (large than 10,000 lbs) and non-commercial vehicles (less than 10,000 lbs.) as well as progressive and consistent enforcement. The freight loading regulations will become effective on August 1, 2014, with an educational campaign and progressive enforcement strategy that will commence with extensive outreach, warnings, and gradually progress to strict enforcement. A copy of the ordinance is attached for your convenience.

We are committed to providing excellent public service and safety to all who live, work, and play in our vibrant, tropical, historic community.
The following are key points of the program:

- 35 expanded freight loading zones for large trucks (each freight loading zone will be curbside consisting of 100’ linear feet equal to five car lengths) for vehicles with a gross weight (GVW) over 10,000 lbs.
- Use is regulated by semi-annual/annual “FLZ” (Freight Loading Zone) electronic permit (license plate), meter payment, or electronic payment via ParkMobile (pay by phone provider).
- Loading days/hours should be consistent with type and demand of deliveries in the area. Typical loading days and hours will consist of Monday to Saturday; 7AM to 3PM or 7AM to 8PM; and 30 minute or 60 minute maximum time limits.
- Loading prohibitions during certain threshold hours are built-in protections from freight loading disturbances and nuisances to residents and hotel guests.
- All other vehicles with a GVW under 10,000 lbs. will be regulated by “AL” (Alley Loading) permit to use other city right-of-ways, including alleys and certain on-street areas.
- Charter buses, may also attain a Freight Loading Zone (FLZ) permit and utilize freight loading zones, for a period not to exceed thirty (30) minutes, at one time.

Expansion of Freight Loading Areas

A survey of the Art Deco/Entertainment District (5th Street to 17th Street and Ocean Drive to Washington Avenue) identified 31 existing loading areas consisting of 1,240 linear feet of curbside space. In order to provide timely and efficient loading capacity, loading areas will be expanded to 35 freight loading zones with a total of 3,500 curbside linear feet, an increase of 182%. This, coupled, with strategic placement of either freight or alley loading with expanded hours, as needed, will establish significantly enhanced loading opportunities. Most importantly, the management of these systems is essential to provide safe and efficient loading operations and substantially reduce double parking, resulting in reduced congestion.

The following factors are utilized to determine applicable freight loading locations and days/hours by corridor or block:

- Freight loading demand
- Traffic volume, including peak periods
- On-street parking inventory

The following are freight loading days/hours applicable contingent upon the aforementioned factors:

- Monday to Saturday, 7AM to 8PM (100 and 200 blocks)
- Monday to Saturday, 7AM to 3PM (Washington Avenue)
- Loading is prohibited outside of these days/hours unless posted otherwise.

This equates to 9,100+ freight loading 30 and 60 minute intervals in the district (assumes an average of two vehicles per freight loading zone during all permitted freight loading hours, six days a week.

We are committed to providing excellent public service and safety to all who live, work and play in our vibrant, tropical, historic community.
Expansion of Alley Loading Areas

Alleys and strategic on-street parking areas in commercial districts will allow non-commercial vehicles (less than 10,000 lbs.) to conduct loading activities during posted hours. The following regulations are applicable:

- Loading days/hours: Monday to Saturday, 7AM to 7PM or 9AM to 7PM.
- Loading prohibited: 8PM to 7AM or 8PM to 9AM.
- Vehicles must maintain emergency vehicle access when parked in alleys.
- 20 minute maximum time limit.

Enforcement

Enforcement of these regulations shall take place as follows:

- The City’s Parking Enforcement Unit will enforce freight loading zone and alley regulations by citing and towing vehicles that do not display the required permit and/or violate the provisions of the program. Proper use of these loading areas is required to ensure efficient space turnover and their availability. Therefore, strict enforcement of this regulation shall be effective after the initial warning period.

- The City’s Police Department will patrol and issue moving violations for obstruction of traffic (double parking). Warnings will be issued through the month of August 2014. This will serve as a notice period for purveyors to familiarize themselves with new regulations, freight loading zone locations, and their respective days/hours.

- The City’s Code Enforcement Department is empowered to enforce the prohibition of loading during posted hours pursuant to City Code. This is essential in holding both purveyors and businesses accountable.

Service Center/Electronic Permits

Freight loading and alley loading (electronic) permits may be purchased at the City’s Service Center, located at 1755 Meridian Avenue, Suite 100, Miami Beach, Florida 33139. Service Center hours are Monday to Friday, from 8:30 AM to 5:00 PM. The following information is included in this package for your convenience:

- Introductory Letter
- Freight Loading Zone and Alley Loading Map
- CMB Ordinance No. 2014-3873
- Frequently Asked Questions (FAQ)
- FLZ and AL Permit Application
- Samples of Posted Signs
- Parking and Police Department Enforcement Procedures

The aforementioned information is also available on the City’s website at miamibeachfl.gov and comments, inquiries, and complaints should be sent via email to: flzhotline@miamibeachfl.gov

We are committed to providing excellent public service and safety to all who live, work, and play in our vibrant, tropical, historic community.
I look forward to working closely with purveyors and our business community to establish safe, efficient, and convenient loading operations for all.

Sincerely,

Saul Frances, Director
City of Miami Beach Parking Department

C: Jimmy Morales, City Manager
   Kathie Brooks, Assistant City Manager
   Joe Jimenez, Assistant City Manager
   Daniel Oates, Police Chief
   Hernan Cardeno, Code Enforcement Director
ORDINANCE NO. 2014-3873

AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AMENDING CHAPTER 106 OF THE MIAMI BEACH CITY CODE, ENTITLED “TRAFFIC AND VEHICLES,” BY AMENDING ARTICLE II, ENTITLED “METERED PARKING,” BY AMENDING DIVISION 2, ENTITLED “GENERALLY,” BY AMENDING SECTION 106-47, ENTITLED “FREIGHT, COMMERCIAL, AND PASSENGER CURB LOADING ZONES; HOURS, DELIVERIES”; BY CREATING SUBSECTIONS 106-47(F) THROUGH 106-47(N) THAT ESTABLISHES STRICT REGULATIONS FOR PARKING IN FREIGHT LOADING ZONES; AUTHORIZING FREIGHT VEHICLE PARKING; IMPLEMENTING A PERMIT APPLICATION REQUIREMENT AND SETTING FORTH TYPES OF PERMITS APPLICABLE TO COMMERCIAL VEHICLES; IMPOSING A REQUIREMENT FOR THE DISPLAY OF A PERMIT AND/OR ELECTRONIC (LICENSE PLATE) PERMIT; PROVIDING AN ALTERNATIVE TO THE PERMIT REQUIREMENT BY UTILIZING PARKING METERS; MANDATING COMPLIANCE WITH OTHER LAWS; ESTABLISHING PERMIT FEES; FURTHER AMENDING SECTION 106-55; BY CREATING SUBSECTION (P), ENTITLED, "FREIGHT LOADING ZONE (FLZ) PERMIT"; AND CREATING SUBSECTION (Q), ENTITLED, “ALLEY LOADING (AL) PERMIT”; PROVIDING FOR CODIFICATION, REPEALER, SEVERABILITY, AND AN EFFECTIVE DATE.

WHEREAS, on March 5, 2014, the Mayor and Commission held discussion Item No. R9H related to commercial vehicles blocking lanes on Washington Avenue, Collins Avenue; Ocean Drive, and West Avenue, including enforcement and long term solutions; and

WHEREAS, commercial and freight loading zones are placed along major commercial corridors throughout the city with posted regulations from 7:00 a.m. to 6:00 p.m., and in South Beach where metered parking is enforced until 3:00 a.m., commercial loading zones are flex zones that transition to metered parking from 6:00 p.m. to 3:00 a.m., and certain areas along Ocean Drive have designated freight loading zones; and

WHEREAS, the existing commercial and freight loading zone regulations provide significant latitude for any type of vehicle to use existing commercial and freight loading zones, leaving very limited opportunities for purveyors with larger trucks to conduct their deliveries and exacerbating double parking; and

WHEREAS, the Administration conducted research of loading zone regulations in other jurisdictions, including Chicago, Houston, New York, Orlando, Pensacola, Portland (Oregon), Salt Lake City, San Jose, and Seattle; and all of these jurisdictions have variations of permitted commercial or freight loading zones with permit fees, restricted hours, and maximum time limits; and

WHEREAS, an amendment to the City Code is necessary to establish regulations and permit fees for commercial and freight loading zones; and

WHEREAS, on April 23, 2014, the Mayor and Commission held a discussion regarding this item and approved the proposed ordinance on first reading.
NOW THEREFORE, BE IT ORDAINED BY THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AS FOLLOWS:

SECTION 1. That Chapter 106, "Traffic and Vehicles," Article II, "Metered Parking," Division 1, "Generally," Section 106-47, entitled, "Freight, Commercial, and Passenger Curb Loading Zones; Hours, Deliveries"; and Section 106-55, entitled, "Parking Rate Fees, and Penalties," Subsection (o), entitled, "Freight Loading Zone Permit" and Subsection (p), entitled, "Alley Loading (AL) Permit" of the Code of the City of Miami Beach, Florida, is hereby established, as follows:

Chapter 106. Traffic and Vehicles

Article II. Metered Parking Division. 1 Generally

Sec. 106-47. Freight, commercial, and passenger curb loading zones; hours, deliveries.

(f) Parking in Freight Loading Zones. It shall be unlawful for any person during the posted hours of a freight loading zone to:

(1) Park a vehicle other than a commercial motor vehicle, as defined in Section 106-1, in a Freight Loading Zone designated throughout the City of Miami Beach;

(2) Utilize a Freight Loading Zone for any purpose, except the active engagement of loading or unloading of property, goods or merchandise from a commercial motor vehicle;

(3) Park a commercial motor vehicle in a Freight Loading Zone without:
   a. Obtaining a current and valid Freight Loading Zone (FLZ) Permit issued for the commercial motor vehicle pursuant to this Article; or
   b. Paying the applicable parking meter fee as provided in Section 106-55 of this code.

(4) Park any commercial motor vehicle in any Freight Loading Zone for a period in excess of that time permitted on posted signs or in excess of the maximum time limit allowed by the parking meter.

A vehicle parked in violation of this section shall be subject to being towed at the direction of any law enforcement officer or parking enforcement specialist, and the imposition of any applicable fines or penalties.

(g) Freight vehicle parking. The operator of a commercial motor vehicle must utilize a Freight Loading Zone during those posted hours for the designated Permit zone pursuant to the Permit issued under this Article. The Zone Permit must be obtained by payment of the applicable parking meter fee or by payment of the parking meter fee via pay by phone service, as provided in section 106-55 of this Code.

Beginning July 1, 2014, the City shall provide for a one-month warning period through and including July 31, 2014, in which warning violations shall be issued to commercial motor vehicle or commercial vehicle operators who fail to comply with Sections 106-47(f) and (g), regardless of knowledge or intent.

Beginning August 1, 2014, Sections 106-47(f) and (g) shall be enforced and penalties shall be applied and imposed for violations of those provisions, as provided herein.
(h) Permit application; issuance.

(1) A person must apply for a Freight Vehicle Loading Permit by submitting an application in the form prescribed by the Director of Parking, with the appropriate permit fee.

(2) The Parking Director may issue a permit, unless he/she determines that:
   a. The application is incomplete or materially deficient; or
   b. The Applicant has any unresolved parking citations for any vehicle owned by the Applicant or any agent of the Applicant, and any unresolved debt with the City by the applicant or any agent of the applicant.

(3) Commercial Fleet Operators with ten (10) or more commercial motor vehicles are eligible to purchase one (1) transferable permit for every five (5) nontransferable permits. The transferable permit must be used for those commercial motor vehicles in the operator's fleet in which a commercial motor vehicle with a nontransferable permit has been temporarily out of service. A transferable permit must be affixed to a commercial motor vehicle of the fleet operator, and shall not be placed on any vehicle other than a commercial vehicle.

(i) Permit; required.

(1) FLZ (Freight Loading Zone) Permit. An FLZ permit will be valid until September 30th of each year, and shall be transferable to any other commercial motor vehicle operated by the Permittee upon prior written notice to the Parking Department, in a manner prescribed by the Parking Director. A commercial motor vehicle with an FLZ permit may be parked in a freight loading zone or, where such zones are unavailable or occupied, parking is permitted at one to two metered automobile parking spaces without payment of the usual meter fee as required elsewhere in this chapter for such spaces. A commercial motor vehicle with an FLZ permit shall not be parked for a period to exceed thirty (30) minutes.

(2) AL (Alley Loading) Permit. Any commercial vehicle which does not qualify as a commercial motor vehicle shall be required to obtain an AL Permit, except FLZ permits issued to mail/parcel commercial motor vehicles, are permitted to utilize those zones designated for AL Permit parking. An AL permit will be valid until September 30th of each year, and shall be transferable to any other commercial vehicle operated by the Permittee upon prior written notice to the Parking Department, in a manner prescribed by the Parking Director. A commercial vehicle with an AL permit shall not be parked for a period to exceed twenty (20) minutes, in those areas designated by the Parking Director.

(i) Permit specific to commercial vehicle.

The applicable Permit issued pursuant to this Article must be registered to a specific commercial motor vehicle or commercial vehicle, and shall be transferable to another vehicle meeting the applicable Permit requirements set forth by the Parking Director, as authorized in this Article.

3
Display of permit and/or electronic (license plate) permit.

A Permit must be conspicuously displayed upon the vehicle for which it is issued, and shall be easily visible to any person passing such a vehicle, on the street or sidewalk while the vehicle is parked in any authorized Freight Loading Zone, or area designated by the Parking Director. The failure to display a Permit shall create a rebuttable presumption that no Permit has been issued for the vehicle. An Electronic (license plate) Permit may be utilized in lieu of the display of a physical permit.

Use of parking meters.

Those commercial operators conducting either infrequent or transient commercial deliveries may park the commercial motor vehicle or commercial vehicle in a Freight Loading Zone space or spaces during posted hours for the Zone by paying the applicable parking meter fee, or utilizing the City's pay by phone service for each space utilized in whole or in part for parking the commercial motor vehicle or commercial vehicle in that Zone, provided that:

1. The vehicle is actively engaged in loading or unloading; and

2. The parking meter, meters, or pay by phone service are not allowed to expire; and

3. The vehicle may not be parked in excess of the maximum time allowed as posted on the parking meter or as authorized by a Permit as provided in this article; however, an unpermitted commercial motor vehicle may utilize one (1) to two (2) metered spaces, or portions of such spaces, within the same block face, by paying the parking meter fee or pay by phone service for each space wholly or partially occupied by such vehicle.

Compliance with other laws.

A Permit issued under this article shall not excuse compliance with all other applicable laws and regulations, and a commercial motor vehicle or commercial vehicle parked in any metered automobile parking space remains subject to any "no parking" and "tow-away zone" restrictions applicable to the parking space. A Permit does not authorize the commercial motor vehicle or commercial vehicle to remain parked at the Freight Loading Zone without being actively engaged in loading or unloading at all times while parked under this article.

Fees.

Fees for Freight Loading Zone Permits are set forth within Section 106-55. A permit or license plate may be replaced during its valid term for the fee stated in Section 106-55, provided the parking official receives the police report for the stolen permit or license plate, or an affidavit for a lost permit or license plate. The permit shall be valid only for the remainder of the original term.
Sec. 106-55. Parking rates, fees, and penalties.

(p) Freight Loading Zone (FLZ) Permit.

An FLZ permit will allow the use of Freight Loading Zones by permitted commercial motor vehicles. Qualifying commercial motor vehicles must register and purchase an annual permit. The permit fee for each vehicle is $364.00, annually or $182.00 semi-annually. A Permittee that operates a fleet of over ten (10) vehicles may purchase up to five (5) vehicle permits for $1,500, annually or $750, semi-annually. One (1) of every five (5) non-transferable permits shall authorize the Permittee to purchase a transferable Permit. Permits are transferable to other qualifying commercial motor vehicles, as described in herein, and shall expire annually. The permit must be in good standing and the commercial motor vehicle must be actively engaged in loading activities when stopping, standing, or parked in a Freight Loading Zone. Freight loading locations, regulations, including maximum time limits, and permitted days/hours shall be determined by the City Manager or his designee.

(q) Alley Loading (AL) Permit.

An AL permit will allow for the use of alleys by permitted vehicles. Qualifying vehicles must register and purchase an annual permit. The permit fee for each vehicle is $182.00, annually or $91.00, semi-annually. A Permittee that operates a fleet of over ten (10) vehicles may purchase up to five (5) vehicle Permits for $750, annually or $375, semi-annually. One (1) of every five (5) non-transferable permits shall authorize the Permittee to purchase a transferable Permit. Permits are transferable to other qualifying vehicles, as described herein, and shall expire annually. The permit must be in good standing, prominently displayed, and the vehicle must be actively engaged in loading activities when stopping, standing, or parked in an alley. Alley regulations, including maximum time limits and permitted days/hours shall be determined by the City Manager or his designee.

SECTION 2. CODIFICATION.

It is the intention of the Mayor and City Commission of the City of Miami Beach, and it is hereby ordained that the provisions of this ordinance shall become and be made part of the Code of the City of Miami Beach, Florida. The sections of this ordinance may be renumbered or re-lettered to accomplish such intention, and the word "ordinance" may be changed to "section," "article," or other appropriate word.

SECTION 3. REPEALER.

All ordinances or parts of ordinances in conflict herewith be and the same are hereby repealed.
SECTION 4. SEVERABILITY.

If any section, subsection, clause or provision of this Ordinance is held invalid, the remainder shall not be affected by such invalidity.

SECTION 5. EFFECTIVE DATE.

This Ordinance shall take effect on July 1, 2014.

PASSED AND ADOPTED this 28th day of May, 2014.

ATTEST:

Strike through denotes deleted language

(Sponsored by Commissioner Michael Grieco)

APPROVED AS TO FORM & LANGUAGE & FOR EXECUTION

City Attorney Date
An Ordinance amending Chapter 106, "Traffic and Vehicles" Section 106-47, entitled, "Freight, Commercial, and Passenger curb loading zones; hours, deliveries"; creating Subsection 106-47(N), Permit Required; further amending Section 106-55; establishing Subsection (P), entitled, "Freight/Commercial Loading Zone Permit Fees"; Subsection (Q), entitled, "Alley Loading Permit Fees", providing for codification, repeal, severability, and an effective date.

Key Intended Outcome Supported:
Commission A Comprehensive Mobility Plan Which Gives Priority Recommendations (From Non-Vehicular to Vehicular And Including Parking).

Supporting Data (Surveys, Environmental Scan, etc)
In FY 12/13, the Parking Department issued a total of 14,721 parking citations for obstruction of traffic and loading zone violations. In Q1 and 2 of FY 13/14, 8,458 parking citations have been issued, which extrapolated annually equates to 16,916, an increase of 13%.

Item Summary/Recommendation:
On March 5, 2014, the City Commission held discussion Item No. R9H related to traffic congestion and commercial vehicles blocking lanes. The relevant city Departments support and recommend the programs detailed below to address traffic congestion. These programs are intended to address freight loading regulations and enforcement. The following multi-pronged strategy is recommended: (1) expanded freight loading opportunities for trucks with a gross vehicle weight over 10K lbs., regulated by permit, for shorter time frames and prohibited at all other times; (2) all other vehicles under 10K lbs. will be required to use alleys furnished with new and more informative signs; (3) enforcement shall take place as follows: (a) The Police Department, with a zero tolerance for obstruction of traffic, will issue moving violations, resulting in points to the driver's Commercial Driver's License; increased insurance costs; and higher fines ($129.00); (b) The Parking Enforcement Unit will enforce the freight loading zone regulations by citing and towing vehicles that do not display the required permit; and (c) The Code Enforcement Department will enforce the prohibition of deliveries during posted hours pursuant to City Code. This will be critical in holding both purveyors and businesses accountable.

On April 23, 2014, the Mayor and Commission held a discussion and approved the proposed ordinance on first reading with the inclusion of a provision for operators to provide either infrequent or transient commercial deliveries without obtaining a permit. This may be accomplished by allowing operators to use freight loading zones via meter payment or payment via pay by phone service. A Fleet permit; extended hours in strategic locations, and honoring of mail/parcel services in alleys was incorporated into the proposed ordinance between first and second reading. The Administration recommends that the City Commission approve the Ordinance on second and final public hearing with an effective date of July 1, 2014, allowing a transitional phase from current to the proposed regulations.

Advisory Board Recommendation:
On 3/3/14 and 5/14, the Transportation and Parking Committee endorsed a freight loading zone program for Wash Ave between 5th and 17th Sts and Collins Ave between 63rd and 75th Sts.

</tbody>
</table>

Financial Impact Summary:
Revenues generated by these programs are estimated to be $90,000 in permit fees and $100,000 in fine revenues, for total annual revenues of $190,000 or $950,000 over five years. However, if successful, these revenues should decline over time. Expenses for the permitting component consist largely of replacement of existing signs, many of which are planned replacements, resulting in a negligible expense. The expense for police enforcement is estimated at $750,000 over five years. In addition, as a component of the fiscal impact analysis, an expense of $55,000 is identified for the processing and administration of the program by City's Service Center. It is estimated that one (1) additional position will be needed to qualify, process, and manage both programs.

AGENDA ITEM RSB
DATE 5-28-14
TO: Mayor Philip Levine and Members of the City Commission
FROM: Jimmy L. Morales, City Manager
DATE: May 28, 2014

SUBJECT: AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AMENDING CHAPTER 106 OF THE MIAMI BEACH CITY CODE, ENTITLED “TRAFFIC AND VEHICLES,” BY AMENDING ARTICLE II, ENTITLED “METERED PARKING,” BY AMENDING DIVISION 2, ENTITLED “GENERALLY,” BY AMENDING SECTION 106-47, ENTITLED “FREIGHT, COMMERCIAL, AND PASSENGER CURB LOADING ZONES; HOURS, DELIVERIES”; BY CREATING SUBSECTIONS 106-47(F) THROUGH 106-47(N) THAT ESTABLISHES STRICT REGULATIONS FOR PARKING IN FREIGHT LOADING ZONES; AUTHORIZING FREIGHT VEHICLE PARKING; IMPLEMENTING A PERMIT APPLICATION REQUIREMENT AND SETTING FORTH TYPES OF PERMITS APPLICABLE TO COMMERCIAL VEHICLES; IMPOSING A REQUIREMENT FOR THE DISPLAY OF A PERMIT AND/OR ELECTRONIC (LICENSE PLATE) PERMIT; PROVIDING AN ALTERNATIVE TO THE PERMIT REQUIREMENT BY UTILIZING PARKING METERS; MANDATING COMPLIANCE WITH OTHER LAWS; ESTABLISHING PERMIT FEES; FURTHER AMENDING SECTION 106-55; BY CREATING SUBSECTION (P), ENTITLED, “FREIGHT LOADING ZONE (FLZ) PERMIT”; AND CREATING SUBSECTION (Q), ENTITLED, “ALLEY LOADING (AL) PERMIT”; PROVIDING FOR CODIFICATION, REPEALER, SEVERABILITY, AND AN EFFECTIVE DATE.

ADMINISTRATION RECOMMENDATION

The Administration recommends that the Mayor and Commission approve the ordinance on second and final public hearing.

First Reading (April 23, 2014) Actions and Follow-up

On April 23, 2014, the Mayor and Commission held the first reading of this proposed ordinance and directed the Administration to include an alternative to the annual/semi-annual permit option to accommodate transient (or infrequent) delivery service. The Administration recommends the following:

- Meter payment option, including pay by phone service (Parkmobile) to accommodate transient (or infrequent) deliveries.
Additionally, the following is also recommended:

- "Fleet Permit" for permittees with a fleet of ten (10) or more vehicles in order to provide added flexibility and a reduced cost for purveyors with multiple commercial motor vehicles.

**Additional Information**

The following information was identified between first and second reading and included herein for informational purposes:

- As a component of the fiscal impact analysis, an expense of $55,000 is identified for the processing and administration of the program by City's Service Center. It is estimated that one (1) additional position will be needed qualify, process, and manage both programs.

- The City Code, Section 106-41, entitled, "Authority of the city manager" provides the City Manager with the authority to set the days, hours, and time limits for metered parking.

- Outreach to purveyors and businesses commenced between first and second reading, including a national parcel service provider, business association, and others. This resulted in valuable insight regarding their needs and challenges in serving our business community. The following provisions were identified: (1) extended FLZ hours at strategic locations and (2) honoring mail/parcel service in alleys. Additional meetings are scheduled with a variety of other purveyors to gain further insight in order to establish effective regulations that will lead to meaningful results.

The following amendments were developed between first and second reading and have been incorporated in the proposed ordinance:

Section 106-47. Freight, commercial, and passenger curb loading zones; hours, deliveries.

(g) **Freight vehicle parking.** The operator of a commercial motor vehicle must utilize a Freight Loading Zone during those posted hours for the designated Permit zone pursuant to the Permit issued under this Article. The Zone Permit must be obtained by payment of the applicable parking meter fee or by payment of the parking meter fee via pay by phone service, as provided in section 106-55 of this Code.

(i) **Permit; required.**

(2) **AL (Alley Loading) Permit.** Any commercial vehicle which does not qualify as a commercial motor vehicle shall be required to obtain an AL Permit, except FLZ permits issued to mail/parcel commercial motor vehicles, which are permitted to utilize those zones designated for AL Permit parking. An AL permit will be valid until September 30th of each year, and shall be transferable to any other commercial vehicle operated by the Permittee upon, prior written notice to the Parking Department, in a manner prescribed by the Parking Director. A commercial vehicle with an AL permit shall not be parked for a period to exceed twenty (20) minutes, in those areas designated by the Parking Director.
Sec. 106-55. Parking rates, fees, and penalties.

(p) Freight Loading Zone (FLZ) Permit

An FLZ permit will allow for the use of freight loading zones by permitted vehicles only. Qualifying vehicles must register and purchase an annual permit. The permit fee for each vehicle is $364.00, annually or $182.00 semi-annually. A Permittee that operates a fleet of over ten (10) vehicles may purchase a fleet permit for up to five (5) vehicles for $1,500, annually or $750, semi-annually. One (1) of every five (5) non-transferable fleet permits shall be transferable. Permits are transferable to other qualifying vehicles, as described herein, and shall expire annually. The permit must be in good standing, prominently displayed, and the vehicle must be actively engaged in loading activities when stopping, standing, or parked in a freight loading zone. Freight loading locations, regulations, including maximum time limits, and permitted days/hours shall be determined by the City Manager or his designee.

(q) Alley Loading (AL) Permit

An AL permit will allow for the use of alleys by permitted vehicles only. Qualifying vehicles must register and purchase an annual permit. The permit fee for each vehicle is $182.00, annually or $91.00, semi-annually. A Permittee that operates a fleet of over ten (10) vehicles may purchase a fleet permit for up to five (5) vehicles for $750, annually or $375, semi-annually. One (1) of every five (5) non-transferable fleet permits shall be transferable. Permits are transferable to other qualifying vehicles as described herein, and shall expire annually. The permit must be in good standing, prominently displayed, and the vehicle must be actively engaged in loading activities when stopping, standing, or parked in an alley. Alley regulations, including maximum time limit, and permitted days/hours shall be determined by the City Manager or his designee.

ANALYSIS

On March 5, 2014, the Mayor and Commission held discussion Item No. R9H related to commercial vehicles blocking lanes; on the following streets: Washington Avenue, Collins Avenue; Ocean Drive, and West Avenue; enforcement and long term solutions.

Existing Commercial Loading Regulations and Enforcement

Commercial and freight loading zones are placed along major commercial corridors throughout the city. Typical posted regulations are commercial loading zones from 7AM to 6PM and in South Beach where metered parking is enforced until 3AM, commercial loading zones are flex zones and transition to metered parking from 6PM to 3AM. Certain areas along the 100 blocks (Ocean Drive to Collins Avenue) have designated freight loading zones. These encompass a quadrant of a city block (approximately four to six parking spaces) between Ocean Drive and Collins Avenue and are operational between 7AM and 11AM. These are designated to accommodate larger trucks and encourage deliveries in the morning hours. Alleys are available for commercial loading activities with two requirements: (1) expeditious loading and unloading for a maximum of 20 minutes and emergency vehicle access must be maintained at all times.
These loading zones are currently regulated through time limit and hours; however, not by vehicle class. The following is the pertinent section of the Miami-Dade County Code Chapter 30-388.24, entitled, "Freight curb loading zones; time limit; passenger use.

(a) No person shall stop, stand or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a freight curb loading zone during the hours when the provisions applicable to such zones are in effect. The stop for loading and unloading materials shall not exceed twenty (20) minutes except in specially marked "parcel truck" loading zones where the stop shall not exceed one (1) hour.

(b) The driver of a vehicle may stop temporarily at a place marked as a freight curb loading zone for the purpose of and while actually engaged in loading or unloading passengers, when such stopping does not interfere with any motor vehicle used for the transportation of materials which is waiting to enter or about to enter such zone.

The current regulation provides significant latitude for any driver of any vehicle to use existing commercial loading zones, leaving very limited opportunities for purveyors with larger trucks to conduct their deliveries. This, in turn, exacerbates double parking.

Enforcement

Enforcement of commercial loading violations and traffic obstruction is done almost exclusively by PES (parking enforcement specialists). This classification was developed in the early 1980s for the enforcement of parking related violations allowing law enforcement officers to address more serious crimes. PESs issue non-moving violations with fine schedules ranging between $18 and $34, contingent upon the type of violation, excluding disabled parking violations which range between $103 and $250.

One major challenge has been the low (and outdated) parking violation fine schedule for Miami-Dade County which was last increased in 1996. Over the last decade, the City has pursued increases to the fine schedule. Most recently, in 2010, the City urged the Miami-Dade Board of County Commissioners, State of Florida, and League of Cities to increase the fine schedule as a deterrent to parking violations. Many violators see the current fine schedule as either cost of doing business for commercial uses and in many circumstances an $18 fine for overtime parking at a metered parking space is lower than parking rates at many private parking facilities and competitive with the City’s own flat parking rate of $15.

Proposed Freight Loading Zones/Alleys and Enforcement Strategies

The Administration conducted research of loading zone regulations in other jurisdictions, including Chicago, Houston, New York, Orlando, Pensacola, Portland (Oregon), Salt Lake City, San Jose, and Seattle. All of these jurisdictions have variations of permitted commercial or freight loading zones, most provide for a permit fee, restricted hours, and maximum time limits. Please refer to the chart below:
At the March 5, 2014, City Commission meeting, it was specifically requested that the Administration review the loading provisions for New York City. New York City is regulated similarly to the other jurisdictions; however, it provides for opportunities for "double parking" under certain conditions. The conditions are as follows:

Double Parking – Under the New York City Traffic Rules double parking is when the driver of a vehicle stands or parks that vehicle on the roadway side of another vehicle that is stopped, standing, or parked at the curb. In most situations, a driver may stand a commercial vehicle alongside a vehicle parked at the curb at such locations and during such hours that stopping, standing, or parking is not prohibited, while expeditiously making pickups, deliveries or service calls, provided that (1) there is no occupied curb space within 100 feet on either side of the street that can be used for standing, and (2) that the standing is in compliance with instructions from police officers and flag persons.

For anyone who has navigated the one-way street pairs in New York City during peak traffic hours in the mornings and afternoons, the aforementioned provisions, more often than not, result in double parking.

Proposed Freight Loading Zone Regulations and Enforcement

The City’s Parking Department, Public Works Department, Transportation Department, Code Enforcement Department, Fire Department, and Police Department all support and recommend the programs detailed below to address traffic congestion. These programs are intended to address freight loading regulations and enforcement. Segments of these plans require an amendment to the City Code, requiring two readings, one of which shall be a public hearing. The following multi-pronged strategy is recommended:
May 28, 2014 City Commission Memo
Freight Loading Amendments to the City Code – Second and Final Public Hearing
Page 6 of 11

- Expanded freight loading opportunities for larger trucks with a gross vehicle weight (GVW over 10,000 lbs), regulated by permit, for shorter time frames and prohibited at all other times.
- All other vehicles (GVW under 10,000 lbs.) will be permitted to use other city right-of-ways, including alleys furnished with new and more informative signs noticing permitted uses.
- Commercial vehicles, such as charter tour buses, may also attain a Freight Loading Zone (FLZ) permit and utilize freight loading zones, for a period not to exceed thirty (30) minutes, at one time. Other open and closed loop sightseeing buses and vehicles, are being addressed on a parallel course through the Neighborhoods and Community Affairs Committee (NCAC) with direction to pursue a concession agreement via a formal competitive process. An item regarding this matter will be presented to the NCAC in May 2014.
- Enforcement shall take place as follows:
  - The Police Department, with a zero tolerance for obstruction of traffic will issue moving violations, resulting in points to the driver’s CDL (Commercial Driver’s License); increased insurance costs; and higher fines than non-moving violation ($129.00).
  - The Parking Enforcement Unit will enforce the freight loading zone regulations by citing and towing vehicles that do not display the required permit and/or violate the provisions of the program.
  - The Code Enforcement Department is empowered to enforce the prohibition of deliveries during posted hours pursuant to City Code, Section 106-47, “Freight, commercial, and passenger curb loading zones; hours, deliveries”. This will be critical in holding both purveyors and businesses accountable.

**Freight Loading Zones (FLZ) Program**

Establish permitted freight loading zones (no other use during these hours) which are comprised of up to four contiguous parking spaces between the hours of 7AM and 11AM and/or 1PM and 3PM. The City Code, Section 106-41, entitled, “Authority of the city manager” provides the City Manager with the authority to set the days, hours, and time limits for metered parking. The City Code states the following, “The city manager is authorized and directed to establish, as traffic conditions may require, zones to be known as parking meter zones upon such streets in the city as he shall select for the location of such zones, and to cause parking meters to be installed and parking meter spaces to be designated as provided in this article. He shall fix the time limitation for legal parking in such zones and spaces. The city manager, from time to time, may add to, change or abandon such parking meter zones. In selecting, changing or abandoning such parking meter zones, the city manager shall be guided and governed by location, amount of traffic, the demand for parking space, the congestion of traffic, the use of the street, and any other conditions which may be existent.”

Permitted vehicles shall be those having a gross vehicle weight of 10,000 lbs or more, as defined by the City Code, Section 106-1, Definitions, as follows: **Commercial motor vehicle** means any self-propelled or towed vehicle used on the public highways in commerce to transport passengers or cargo, if such vehicle:

1. Has a gross vehicle weight rating of 10,000 pounds or more;
2. Is designed to transport more than 15 passengers, including the driver; or
3. Is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act, as amended (49 USC 1801 et seq.).
FLZ will allow for the use of freight loading zones by permitted vehicles only. Non-permitted vehicles will be cited and towed in order to make way for those authorized vehicles. Permitted vehicles will register at the City’s Service Center and purchase an annual permit. The annual permit fee for each vehicle is recommended to be $364.00, annually or $182.00 after April 1st. Permits are transferable to other qualifying vehicles in their fleet, limited to two (2) transfers, semi-annually, and shall expire on September 30th each year. The permit must be in good standing, prominently displayed, and the vehicle must be actively engaged in loading activities when stopping, standing, or parked in a freight loading zone. Freight loading locations, regulations, including maximum time limits, and permitted days/hours shall be determined by the City Manager or his designee.

The following factors shall be utilized to determine applicable regulations for each corridor:

- Freight loading demand
- Traffic volume, including peak periods
- On-street parking inventory

The following regulations are proposed for immediate implementation in two (2) major corridors in the City, experiencing high levels of traffic congestion, these are: (1) Washington Avenue between 5th Street and 17th Street and (2) Collins Avenue between 63rd Street and 75th Street. Other corridors, including Alton Road between 5th Street and Dade Boulevard and Collins Avenue between 5th Street and Espanola Way, will be coordinated with FDOT for appropriate signage and pavement markings.

The following regulation is recommended for Washington Avenue between 5th Street and 17th Street and Collins Avenue between 63rd Street and 75th Street:

- Transition existing Commercial Loading Zones to Freight Loading Zones with an "FLZ" permit required.

- FLZ days and hours are Monday to Saturday, 7AM to 11AM and 1PM to 3PM.

- Freight loading is prohibited at all other times. Establishments accepting deliveries outside of posted hours shall be subject to code violations, pursuant to the City Code.

- FLZ permits will also be honored at up to two (2) metered spaces without having to pay the meter during the posted FLZ days/hours.

- FLZ will transition to “Pay to Park” for the general public during non-freight loading zone hours that are metered operational hours).

- Deliveries may also take place in designated alleys 7AM to 7PM, Monday to Saturday, contingent upon meeting alley loading regulations.
Alley Loading Regulations

All alleys in commercial districts will be posted with signs giving notice of the following regulations:

- Transition existing alley regulations to Alley Loading (AL) permit required.
- Permit Fee: $182.00, annually or $91.00 semi-annually,
- Deliveries 7AM to 7PM
- Deliveries prohibited 7PM to 7AM
- Maintain Emergency Vehicle Access
- 20 Minute Maximum
Traffic Obstruction Enforcement Program

Police officers will be assigned to dedicated enforcement (moving violations) for obstruction of traffic (double parking) on major thoroughfares. Moving violations are an effective deterrent of double parking, as it: (1) assesses points to the operator's driver's license, (2) increases insurance premiums, and (3) moving violations carry higher penalties than non-moving citations issued by parking enforcement specialists. This assignment will be proposed as an enhancement for the FY 2013/14 Budget, subject to budget approval process and may be funded in the current year, subject to a budget amendment.

Proposed Amendments to the City Code:

The following amendments to the City Code are recommended:

Parking in freight loading zones.

It shall be unlawful for any person during the posted hours of operation of a freight loading zone to:

(1) Park any vehicle other than a commercial vehicle, as defined in Section 106-1, in any freight loading zone designated by the city;

(2) Utilize a freight loading zone for any purpose other than the expeditious loading or unloading of property, goods or merchandise from a commercial vehicle;

(3) Park any commercial vehicle in any freight loading zone without either:
   a. Displaying a current and valid freight (FLZ) vehicle parking permit issued and utilized pursuant to this article; or
   b. Paying the meter fee as provided in Section 106-55 of this code; or

(4) Park any commercial vehicle in any freight loading zone for a period in excess of that time allowed on posted signs or in excess of the maximum time limit allowed by the meter.

In addition to any applicable fine or penalty, any vehicle parked in violation of this section shall be subject to being towed at the direction of any law enforcement officer or parking enforcement specialist.

Freight vehicle parking.

The operator of a commercial vehicle may utilize a freight loading zone during the posted hours of operation of the zone pursuant to a permit issued under this article or by payment of the meter fee as provided in section 106-55 of this Code.

Permit application; issuance.

(a) A person may apply for a freight vehicle loading permit by submitting an application in the form prescribed by the director, along with the appropriate permit fee.

(b) The parking official shall issue a permit, unless he/she determines that:

(1) The application is incomplete or materially untruthful; or

(2) There exist any unresolved parking citations for any vehicle owned by the applicant or any agent of the applicant; and any unresolved debt with the City by the applicant or any agent of the applicant.
Permit; required.

(1) FLZ (Freight Loading Zone) Permit. An FLZ permit will be valid until September 30th, of each year and shall be transferable to any other commercial vehicle operated by the permittee upon prior notice in a manner prescribed by the parking official. A commercial vehicle with an FLZ permit may be parked in a freight loading zone or, where such zones are unavailable or occupied, parked utilizing one to two metered automobile parking spaces without payment of the usual meter fee as required elsewhere in this chapter for such spaces. A commercial vehicle with an FLZ permit may be parked for a period not to exceed thirty (30) minutes at one time.

(2) AL Permit. An AL permit will be valid until September 30th, of each year and shall be transferable to any other commercial vehicle operated by the permittee upon prior notice in a manner prescribed by the parking official. A commercial vehicle with an AL permit may be parked in an alley for a period not to exceed twenty (20) minutes at one time.

Permit specific to commercial vehicle.

Each permit shall be registered to a specific commercial vehicle and shall be transferable only to another vehicle meeting permit requirements, as provided in this article.

Display of permit.

A permit must be conspicuously displayed upon the commercial vehicle for which it is issued so as to be easily visible to any person passing such commercial vehicle on the street or sidewalk while the commercial vehicle is parked in any freight loading zone. Any failure to display a permit shall create the presumption that no permit for the commercial vehicle exists. A license plate enabled platform shall shortly render the permit display requirement moot.

Use of parking meters.

As an alternative to obtaining a permit, the operator of a commercial vehicle may park the commercial vehicle in a freight loading zone space or spaces during posted hours of operation for the zone by paying the meter fee for each space utilized in whole or in part for parking the commercial vehicle in that zone, provided that:

(1) The commercial vehicle is then being expeditiously loaded or unloaded; and
(2) The meter or meters are not allowed to expire; and
(3) The commercial vehicle may not be parked in excess of the maximum time allowed as posted on the meter or as authorized by a permit as provided in this article; however, an unpermitted commercial vehicle may utilize one (1) to two (2) metered spaces, or portions of such spaces, within the same block face, by paying the meter fee for each space wholly or partially occupied by such commercial vehicle.
Compliance with other laws.

A permit issued under this article shall not excuse compliance with applicable laws, and a commercial vehicle or charter bus parked in any metered automobile parking space remains subject to any "no parking" and "tow-away zone" restrictions applicable to the parking space. Additionally, a permit does not excuse the requirement that the commercial vehicle must be expeditiously loaded or unloaded at all times while parked under this article.

Fees.

Fees for freight loading zone permits are stated for this provision in the fee schedule. A permit may be replaced during its valid term for the fee stated for this provision in the city fee schedule, upon providing the parking official the police report for the stolen permit or an affidavit for a lost permit. The permit shall be valid only for the remainder of the original term.

Effective Date and Implementation Plan

An effective date of July 1, 2014, for the ordinance is recommended. Initial outreach to purveyors and business communities has begun. In addition, new signs will need to be developed and installed as well revised pavement markings. Mobilization of this work is estimated to be completed within 30 days after the approval of the ordinance, at second reading.

FISCAL IMPACT

Revenues generated by these programs are estimated to be $90,000 in permit fees and $100,000 in fine revenues, for total annual revenues of $190,000 or $950,000 over five years. However, if the program is successful, these revenues should decline over time.

Expenses for the permitting component consists largely of replacement of existing "commercial loading zone" and "no parking in alley" signs, many of which are planned replacements, resulting in a negligible expense. The expense for police enforcement is estimated at $750,000 over five years.

As aforementioned, an additional expense of $55,000 was identified between first and second reading. This consists of processing and administration of the program by City's Service Center. It is estimated that one (1) additional Financial Analyst (FA) position will be needed to support both programs.

CONCLUSION

In conclusion, the Administration recommends that the Mayor and City Commission approve an amendment, on second and final public hearing, to Chapter 106, “Traffic and Vehicles" Article II, "Metered Parking" by amending Sections 106-55; establishing, Subsection (F), Permit Required; Further Amending Section 106-55; Establishing Subsection (O), entitled, "Freight and Commercial Loading Zone Permit Fees"; providing for codification, repealer, severability, and an effective date.
NOTICE IS HEREBY given that a public hearing will be held by the Mayor and City Commission of the City of Miami Beach, Florida, in the Commission Chambers, 3rd floor, City Hall, 1700 Convention Center Drive, Miami Beach, Florida, on Wednesday, May 28, 2014, to consider the following:

5:40 p.m.
An Ordinance Amending Chapter 106 Of The Miami Beach City Code, Entitled “Traffic And Vehicles,” By Amending Article II, Entitled “Metered Parking,” By Amending Division 2, Entitled “Generally,” By Amending Section 106-47, Entitled “Freight, Commercial, And Passenger Curb Loading Zones; Hours, Deliveries”; By Creating Subsections 106-47(F) Through 106-47(N) That Establishes Strict Regulations For Parking In Freight Loading Zones; Authorizing Freight Vehicle Parking; Implementing A Permit Application Requirement And Setting Forth Types Of Permits Applicable To Commercial Vehicles; Imposing A Requirement For The Display Of A Permit And/Or Electronic (License Plate) Permit; Providing An Alternative To The Permit Requirement By Utilizing Parking Meters; Mandating Compliance With Other Laws; Establishing Permit Fees; Further Amending Section 106-55; By Creating Subsection (P), Entitled, “Freight Loading Zone (FLZ) Permit”; And Creating Subsection (Q), Entitled, “Alley Loading (AL) Permit”; Providing For Codification, Repealer, Severability, And An Effective Date.

Inquiries may be directed to the Parking Department 305.673.7505.

Interested parties are invited to appear at this meeting, or be represented by an agent, or to express their views in writing addressed to the City Commission, c/o the City Clerk, 1700 Convention Center Drive, 1st Floor, City Hall, Miami Beach, Florida 33139. A Copy of this item is available for public inspection during normal business hours in the City Clerk’s Office, 1700 Convention Center Drive, 1st Floor, City Hall, Miami Beach, Florida 33139. This meeting, or any item therein, may be continued, and under such circumstances, additional legal notice need not be provided.

Pursuant to Section 286.0105, Fla. Stat., the City hereby advises the public that if a person decides to appeal any decision made by the City Commission with respect to any matter considered at its meeting or its hearing, such person must ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. This notice does not constitute consent by the City for the introduction or admission of otherwise inadmissible or irrelevant evidence, nor does it authorize challenges or appeals not otherwise allowed by law.

To request this material in accessible format, sign language interpreters, information on access for persons with disabilities and/or any accommodation to review any document or participate in any City-sponsored proceeding, please contact us five days in advance at 305.673.7411 (voice) or TTY users may also call the Florida Relay Service at 711.

COMING SOON

On August 1, 2014, new FLZ regulations will be in effect. FLZ requirements, including vehicle type (vehicles 10,000+ lbs), methods of payment (permit, meters, or pay by phone service), days, hours, and time limits will be posted at each FLZ.

All other vehicles (<10,000 lbs) may attain Alley Loading (AL) permits to conduct loading activities in posted alleys (Ocean Court and Collins Court).

City of Miami Beach Police, Parking Enforcement, and Code Enforcement will initially issue warnings. However, it is important to become familiar with these new regulations to ensure a smooth transition, and avoid enforcement actions.

Helpful Tips:

- Do not park in an FLZ unless your commercial vehicle is permitted; and meets weight restrictions and comply with all posted regulations.

- If your vehicle does not meet the weight requirements, you may not conduct loading activities at an FLZ. Please use alleys and adhere to the post regulations.

- Non-commercial vehicles (<10,000 lbs) must attain an AL permit and use posted alleys for their loading. Look for posted signs in alleys with "AL" regulations.

- Vehicles and businesses conducting loading activities during prohibited days/hours are subject to enforcement actions.

- After the initial warning period, parking regulations and traffic laws will be strictly enforced. DO NOT DOUBLE PARK!

For more information about FLZ and AL regulations, including: an informational notice; map of FLZ and AL locations; application form, enabling legislation, sample signs, and FAQ (Frequently Asked Questions, please visit [www.miamibeachfl.gov](http://www.miamibeachfl.gov). Please email inquiries and comments to flzhotline@miamibeachfl.gov.
CITY OF MIAMI BEACH FREIGHT AND ALLEY LOADING

FREQUENTLY ASKED QUESTIONS (FAQ)

Q1. What is a Freight Loading Zone (FLZ)?
A1. An FLZ is a posted on-street parking area, typically 100’ long, for the use of commercial vehicles with a gross vehicle weight (GVW) exceeding 10,000 lbs. Posted signs provide permitted hours, days, time limits, payment options, and prohibitions.

Q2. Why were FLZ regulations established?
A2. Traffic congestion and resident/visitor quality of life are a priority for the City of Miami Beach. "Double parking" (obstruction of a travel lane) was identified as a major contributor to traffic congestion and "after hours" freight loading activities (lift gates, alarms, etc.) within earshot of sleeping residents or hotel guests is simply no longer acceptable. Regulated freight loading opportunities have been increased by 166%. Permitted freight loading hours vary by area. Demand and usage will be monitored and adjusted accordingly by the City’s Parking Department.

Q3. What is an Alley Loading Zone?
A3. Alleys are city right-of-ways typically providing “backdoor” access to commercial establishments or residential properties for loading opportunities.

Q4. What is an AL (Alley Loading) permit?
A4. An AL permit is granted to vehicles with a gross weight of less than 10,000 lbs. It is intended for the use of smaller vehicles servicing commercial establishments. Parcel and mail delivery service providers with FLZ permits are honored in AL permit zones; however, these parcel/mail vehicles must honor AL permit regulations. Alleys are important access points for emergency vehicles; therefore, while expeditiously loading in alleys, AL permit holders must maintain access for emergency vehicles.
Q5. What do I need to do in order to use an FLZ?

A5. Commercial vehicles exceeding a gross vehicle weight (GVW) of 10,000 lbs must attain either semi-annual or annual permit and infrequent users do not need to attain a permit and may pay for parking at pay station or via ParkMobile (mobile app). Permit registration is available at the City of Miami Beach Service Center, located at 1755 Meridian Avenue, Suite 100, Monday to Friday, 8:30 AM to 5:00PM.

Q6. What do I need to do in order to use an AL zones?

A6. Non-commercial vehicles (under 10,000 lbs) must attain either semi-annual or annual permit. Permit registration is available at the City of Miami Beach Service Center, located at 1755 Meridian Avenue, Suite 100, Monday to Friday, 8:30 AM to 5:00PM.

Q7. What documentation is needed to attain an FLZ or AL permit?

A7. The following documentation must be provided:
   - Valid vehicle registration
   - Articles of incorporation, if a commercial entity.
   - Valid photo identification.

Q8. What options do I have if I do not regularly deliver or pick in Miami Beach?

A8. Commercial vehicles (over 10,000 lbs.) may pay for parking at pay station or electronic payment via ParkMobile, the City’s mobile app for pay by phone service. ParkMobile app is a free download on android, iphone, windows, and blackberry.

Q9. How will purveyors and local businesses be notified of freight loading regulations?

A9. All regulations are clearly posted on signs in the public right-of-way. Information about the City’s freight loading regulations, including supporting legislation is available at the City of Miami Beach website at miamibeachfl.gov.

Q10. How will freight loading regulations be enforced?

A10. The City’s Parking Enforcement Unit will enforce freight loading zone regulations by citing and towing vehicles that fail to obtain the required permit and/or violate any of the posted regulations. The City’s Police Department enforces traffic regulations, including double parking with moving violations.

The City’s Code Enforcement Department is empowered to enforce the prohibition of deliveries during posted hours pursuant to City Code, Section 106-
47, “Freight, commercial, and passenger curb loading zones; hours, deliveries”. Businesses accepting deliveries during prohibited hours are subject to NOV (notice of violation).

Q11. If I have comments, questions, complaint, who may I contact?

A11. Comments, questions, and complaints should be emailed to flzhotline@miamibeachfl.gov. A Code and Parking Enforcement Hotline is available 24/7/365 at 305.604.CITY.

Q12. How does a freight company deal with permitted trucks that are out of service due to maintenance or breakdowns?

A12. The vehicle’s license plate will serve as its electronic permit. Parking enforcement is equipped with LPR (license plate recognition) readers to confirm validity. Later this year, freight companies will be set up with an online account (login and password) so they may manage their accounts and make changes that will be effective in real time. In the interim, user may send these revisions to the email address provided in response No. 11 above.

Q14. What do large vehicles supporting construction, utilities, or other public works oriented services do?

A14. These large vehicles may either use pay stations, ParkMobile, or attain a daily parking space rental, if needs are for a full day or multiple days.

Q15. Will there be an appeals process for companies which were unaware of the ordinance and were issued a citation?

A15. The ordinance requires posting of regulations on right-of-way providing notice thereof. Non-moving and moving violations have an established appeal process. Code Enforcement violations may be appealed through the City Clerk Special Master.

Q16. What happens if truck drivers are unable to find available loading after multiple attempts?

A16. Neither the quantity of freight loading zones nor their days and hours for are codified in the City Code. The City Manager or his designee may designate the quantity, placement, and hours of freight loading zones. The City’s Parking Department is committed to providing sufficient freight loading opportunities to efficiently service the business community.

Q17. What can purveyors and their drivers do to comply?
A17. Purveyors and their drivers should **always** park legally. At times, it is normal to have freight loading zones in use by legitimate permit holders. It is important for drivers to be patient. Freight loading zones are designed to be available every 30 or 60 minutes, accordingly. It is also important for purveyors and their drivers to have zero tolerance for illegal parking and take action to address any instance accordingly. *This means no double parking!*

Q18. What assurances do I have that there will be enough freight loading zones and access hours to allow for continued freight delivery without disruption to my customers...your business community?

A18. The City’s Parking Department monitors freight loading use in order to improve availability. Areas confirmed with a lack of freight loading availability will be adjusted accordingly.

Q19. How will drivers know where specific freight loading zones are located?

A19. A map with all freight loading zones and alley loading locations is available at the City’s website www.miamibeachfl.gov.
