

MIAMI BEACH EMERGENCY MANAGEMENT

RED TIDE UPDATE:

Ocean Rescue has been reporting twice daily, once at 1230 and once at 1900 which I combine into one report. Reports are separated in this morning's Sit-Rep due to what appears to be a favorable trend.

As of 1230 yesterday, Ocean Rescue reported one itchy throat at 9th street. A couple of dead fish at 72nd street, and 3 kite surfers got out of the water at 74th with itchy throats.

The report at 1900 had no complaints.

As of 0800 this morning, Fire Rescue reported no cases of treatment or transport.

The link below is the FWC interactive map that is updated daily for Red Tide conditions.
