Recommendation

It is recommended that the Board approve:

- The attached City Center/Historic Convention Village Redevelopment and Revitalization Area Plan.

- The delegation of redevelopment powers under Chapter 163, Florida Statutes except those specifically identified in the resolution.

- The attached Interlocal Cooperation Agreement between Dade County and the City of Miami Beach which establishes terms and conditions, including the County and City responsibilities for the implementation of the City Center/Historic Convention Village Redevelopment and Revitalization Area Plan.

Background

In 1969, the Florida Legislature enacted the Community Redevelopment Act of 1969 as is presently contained in Part III of Chapter 163, Florida Statutes, as amended (The "Act"). The Act authorizes counties and municipalities in the State of Florida to create community redevelopment agencies, to prepare redevelopment plans for certain defined areas within their boundaries, designated as community redevelopment areas and to delegate redevelopment powers at the discretion of the County, after a finding has been made determining that slum or blight exists within a defined area.

On January 26, 1993, the Board by Resolution No. R-14-92, found the City Center/Historic Convention Village Redevelopment and Revitalization Area to be a slum or blighted area and delegated certain redevelopment powers consistent with the Act to City of Miami Beach so that the City could proceed with the creation of a Community Redevelopment Agency and the preparation of a Redevelopment Plan for said area.
Honorable Mayor and Members
Board of County Commissioners
Page 2

The City has prepared a Redevelopment Plan which was adopted by the City Commission on February 12, 1993 (Resolution No. 93-20721). County staff has reviewed this plan and found it to be consistent with the Act and the County’s Comprehensive Master Plan and, therefore, recommends its approval by the Board.

In order to implement the Redevelopment Plan, the City Commission has requested that all redevelopment powers under the Act be delegated to it by the Board. Said delegation is to be granted by this Board and formalized through an interlocal agreement between the County and the City. County staff has reviewed this request and recommends that every redevelopment power under the Act, except those pertaining to approval of annual budgets and the amount, duration and purpose of any bonds, notes, etc. for the Redevelopment Area pledging or otherwise obligating tax increment funds, and amendments to the redevelopment plan, be delegated to the City of Miami Beach.

WHEREAS, this Board desires to accomplish the purposes outlined in the memorandum from the County Manager, a copy of which is attached to this resolution and incorporated herein, for the reasons delineated therein;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF DADE COUNTY, FLORIDA, that

Section 1. The foregoing recitations are deemed true and correct and are hereby incorporated as a part of this resolution.

Section 2. This Board hereby accepts the delivery of the Plan delivered to it by the City Commission. This Board hereby finds and determines that:

(a) The redevelopment of the Redevelopment Area is necessary in the interest of the public health, safety, morals, and welfare of the residents of the City of Miami Beach and in the interests of implementing Part III of Chapter 163, Florida Statutes, by revitalizing the area economically and socially, thereby inhibiting the spread of disease and crime, and inter alia improving the tax base, promoting sound growth, and providing improved housing conditions.

(b) A feasible method exists for the location of families who will be displaced from the Redevelopment Area in decent, safe, and sanitary dwelling accommodations within their means and without undue hardship to such families.
(c) The Plan conforms to the comprehensive plan of the City of Miami Beach and the County as a whole.

(d) The Plan gives due consideration to the provision of adequate park and recreational areas and facilities that may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the site covered by the Plan.

(e) The Plan will afford maximum opportunity, consistent with the sound needs of Dade County and the City of Miami Beach as a whole, for the rehabilitation or redevelopment of the Redevelopment Area by private enterprise.

(f) To the extent that the Redevelopment Area consists of an area of open land to be acquired by the City of Miami Beach or the Redevelopment Agency so as to be developed for residential uses, such areas may be acquired because it is hereby determined that: (i) a shortage of housing of sound standards and design which is decent, safe, affordable to residents of low or moderate income, including the elderly, and sanitary exists in the City of Miami Beach, (ii) the need for housing accommodations has increased in the Redevelopment Area, (iii) the conditions of blight in the Redevelopment Area or the shortage of decent, safe, affordable, and sanitary housing cause or contribute to an increase in and spread of disease and crime and constitute a menace to the public health, safety, morals or welfare, and
(iv) the acquisition of the area for residential uses is an integral part of and is essential to the project set forth in the Plan.

(g) With respect to any open areas in the Redevelopment Area which are to be acquired so as to be developed for non-residential uses, such non-residential uses are necessary and appropriate to facilitate the proper growth and development of the community in accordance with sound planning standards and local community objectives, and acquisition may require the exercise of governmental action as provided in Part III of Chapter 163, Florida Statutes, because of:

1. Defective, or unusual conditions of, title or diversity of ownership which prevents the free alienability of such land;
2. Tax delinquency;
3. Outmoded street patterns;
4. Deterioration of site;
5. Economic disuse;
6. Unsuitable topography or faulty lot layouts;
7. Lack of correlation of the Redevelopment Area with other areas of the City of Miami Beach by streets and modern traffic requirements; or
8. Any combination of such factors or the other conditions set forth in the Plan which retard development of the area.
Section 3. This Board hereby further finds and determines that: (a) the Redevelopment Plan conforms to the comprehensive plan of the City of Miami Beach; (b) the Redevelopment Plan is sufficiently complete to indicate such land acquisition, demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the Redevelopment Area; zoning and planning changes, if any; land uses; maximum densities; and building requirements; (c) the Redevelopment Plan conforms with Part III of Chapter 163, Florida Statutes; and (d) the Redevelopment Plan is necessary in the interest of the public health, safety, morals, and welfare of the residents of the City of Miami Beach and will effectuate the purposes of the aforesaid statute, by revitalizing the Redevelopment Area economically and socially, thereby increasing the tax base, promoting sound growth, improving housing conditions, and eliminating the conditions which the Florida Legislature in such statute found constituted a menace which was injurious to the public health, safety, welfare, and morals of the residents.

Section 4. This Board, after having conducted a public hearing on the matter for the purpose of giving all interested persons an opportunity to express their views, notice of which public hearing was published on March 15, 1993 in The Miami Herald, a true copy of which notice is attached hereto as "Appendix C" and made a part hereof, and having made the findings expressed above, hereby approves and adopts the Redevelopment
Plan for the Redevelopment Area in accordance with Part III of Chapter 163, Florida Statutes, as amended. The Plan is hereby designated as the official redevelopment plan for the aforesaid Redevelopment Area and it is the purpose and intent of the City Commission that said Redevelopment Plan, as same may be supplemented and amended by the City Commission and approved by this Board, be implemented in the Redevelopment Area.

Section 5. Except for the specific powers retained by this Board as set forth in Section 6 below, this Board hereby delegates, pursuant to Section 163.410, Florida Statutes, to the City Commission as the governing body of the City, every power originating in Part III, Chapter 163, Florida Statutes, as amended, and conferred thereby upon the Board of County Commissioners of Dade County as the governing body of Dade County, Florida, a Home Rule County, including, without limitation, the following:

(a) The power to implement the Redevelopment Plan, as same may be amended from time to time;

(b) The power from time to time to adopt any amendments to the Plan, which amendments shall be subject to the final approval by this Board;

(c) The power to further delegate the powers delegated hereto to a community redevelopment agency, including, without limitation, to itself as the community redevelopment agency with the power to exercise such powers which may be assigned to the agency;
(d) The power to authorize the issuance of revenue bonds as set forth in Section 163.385;

(f) The power to approve the acquisition, demolition, removal or disposal of property as provided in Section 163.370(3)(a) and the power to assume the responsibility to bear loss as provided in Section 163.370(3)(b);

(g) The powers enunciated in Section 163.370(1) and in Section 163.375, Section 163.380, Section 163.385 and in Section 163.387, Florida Statutes, as amended, and any other powers which are exercisable by the Board and delegable to the City pursuant to Part III of Chapter 163, Florida Statutes, as amended; and

(h) The power to hold any public hearings with respect to the implementation of the Plan and the exercise of the powers herein conferred.

Said delegation is made solely with respect to the Redevelopment Area which is the geographic area described in Appendix "A" attached hereto, known as the "City Center/Historic Convention Village Redevelopment and Revitalization Area," which is bounded on the East by the Atlantic Ocean, on the North by 24th Street, on the West by West Avenue, and on the South by 14th Lane.

Section 6. This Board retains the power to: approve the annual budget for the Redevelopment Area; approve the amount, duration and purpose of any bonds, notes, advances or other indebtedness for the Redevelopment Area pledging or otherwise
obligating tax increment funds; and approve any amendments to the Redevelopment Plan. Any approval required by this Board as to the annual budget, amendments to the Plan or the amount, duration and purpose of bonds, notes or other indebtedness for the Redevelopment Area shall: not be unreasonably withheld or delayed; be deemed approved if not disapproved within 90 days of written submission by the City; and not adversely affect any matters previously approved either in a previous annual budget or pursuant to any previously approved bond, note or other form of indebtedness pledging or obligating tax increment revenues. The delegation in Section 5 herein shall be subject to the provisions of the Interlocal Agreement attached hereto as Appendix "D" and the exercise of said powers shall conform to the terms of the Interlocal Agreement.

Section 7. This Board hereby approves the Interlocal Agreement as attached hereto and made a part hereof and authorizes the County Manager to execute and deliver the Interlocal Agreement as attached hereto and to take all further actions necessary or appropriate to accomplish implementation of the Redevelopment Plan and to perform under the Interlocal Agreement.

Section 8. If any section, subsection, sentence, clause or provision of this resolution is held invalid, the remainder of this resolution shall not be affected by such invalidity.
Section 9. This resolution shall take effect immediately upon its passage.

The foregoing resolution was offered by Commissioner Mary Collins, who moved its adoption. The motion was seconded by Commissioner Charles Dusseau and upon being put to a vote, the vote was as follows:

The City shall deposit the proceeds from the aforementioned sale or lease in an appropriate redevelopment account to be utilized in accordance with the Project budget and applicable law. The City may convey or lease land to qualified non-profit organizations pursuant to City procedures. Guidelines for selection of qualified non-profit organizations must be established by the City and comply with the Plan and applicable law.

B. Other Project Activities

1. The City shall be responsible for the administration and funding of all relocation activities. The City may contract with County agencies to assist in residential relocation.

2. The City shall design and construct public improvements necessary to support the redevelopment of the Project. Such activities shall comply with applicable federal, state and County laws and regulations relating to affirmative action.
3. All redevelopment activities conducted with respect to the Project shall be in conformance with the plan as the same may be amended. Any amendments to the adopted Plan as required by Section 163.361, Florida Statutes, must have prior approval of the Board before the City may implement the changes contemplated by the amendments. Once approved, however, the City may implement the amendments thereto.

4. The City shall use its best efforts to enter into a development agreement with a developer as to a convention center hotel project within one of the project areas specified in the Plan for a convention hotel. By December 31, 1996, the City shall report to the County as to its progress with respect to the execution of such a development agreement. If no such development agreement is signed by December 31, 1996, then the City shall have one year (i.e. by December 31, 1997) within which to enter into a development agreement with a developer or submit a Plan amendment to the County eliminating or reconfiguring the Convention Center Redevelopment areas and changing the convention center hotel element of the Plan, which amendment shall be subject to approval of the County.
C. Project Financing

1. The City shall establish and maintain the Redevelopment Trust Fund (the "Fund") as required by applicable law. Both the City and the County shall deposit annually into the Fund an amount calculated pursuant to Section 163.387, Florida Statutes, and other provisions of applicable law.

2. The City shall develop and promulgate rules, regulations and criteria whereby the Fund may be promptly and effectively administered, including the establishment and the maintenance of books and records and adoption of procedures whereby the City may, expeditiously and without undue delay, utilize such funds in accordance with the approved budget for the Project.

3. The City shall prepare and submit for County approval at the beginning of each County fiscal year the Project budget in a format approved by the County.

4. The City shall select financial and legal consultants as necessary to assist in the preparation of the tax increment financing plans.

5. The City may sell bonds and execute notes and other forms of indebtedness, as well as collateral documents, to finance the Project; however, County approval as to amount, duration and purpose of such bonds, notes or other indebtedness, including
advances pledging or obligating tax increment revenues, must be obtained prior to issuance of any such bond, note or other form of indebtedness including advances pledging or obligating tax increment revenues. The County's obligation to annually appropriate to the Fund shall continue until all loans, advances and indebtedness, if any, and interest thereon, of a Community Redevelopment Agency incurred as a result of redevelopment in the Redevelopment Area, have been paid, or for as long as required by applicable law, whichever is later. In no year shall the County's obligation to the Fund exceed the amount of that year's tax increment as determined pursuant to Part III of Chapter 163, Florida Statutes. In any year in which the County appropriates tax increment revenues to the Fund pursuant to Section 163.387(3), Florida Statutes, the City shall promptly disburse the applicable portion of said increment revenues out of the Fund back to the County if and to the extent that such increment revenues are not: pledged, obligated or otherwise to be used for repayment of any bond, note or other form of indebtedness or obligation including advances pledging or obligating tax increment revenues; or pledged, obligated or otherwise to be used for payment or repayment of
any expenditure or obligation contemplated by any
budget for the Redevelopment Area or any amendment
to the Plan.

D. Citizen Participation

To carry out the citizen participation process, the
City may utilize community groups and seek community involvement
and consider citizen input in the development of Project
activities.

E. Project Management, Administration and Coordination

The City shall consider any reasonable request of the
County with respect to implementing any plan of action with
respect to the Plan. The City shall develop implementation
schedules and timetables for all significant Project activities
as determined by the City, copies of which shall be delivered to
the Project Coordinator. The City shall monitor the
implementation schedules and timetables and shall submit annual
progress reports to the Project Coordinator beginning one year
from the implementation of this Agreement. The City shall also
deliver additional interim reports to the County upon request.

IV. City Assurances Regarding Affirmative Action.

As part of this Agreement the City shall follow applicable
federal, state and County laws and regulations concerning
affirmative action and race conscious concerns in the hiring of
all consultants.

V. Board Approval.

Any approval required by this Board as to the annual budget,
amendments to the Plan or amount, duration and purpose of bonds,
notes or other indebtedness for the Redevelopment Area shall not be unreasonably withheld or delayed, shall not adversely affect any matters previously approved either in a previous annual budget or pursuant to any previously approved bond, note or other form of indebtedness pledging or obligating tax increment revenues and shall be deemed approved if not disapproved within 90 days of written submission by the City.

VI. Amendments.

This Agreement may be amended only by a written agreement signed by the City and the County.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed in their names by their duly authorized officers and the corporate seals to be affixed hereto, all as of the day and year first above written.

WITNESS our hands and seals on this ___ day of ________, 1993.

Condensed Title:

ISSUE:
Shall the City Center Redevelopment plan be amended to incorporate provision of the 17th Street Master Plan.

Item Summary/Recommendation:
Section 163.361, Florida Statutes, provides that the governing body of the Redevelopment Agency may amend the Redevelopment Plan from time to time, upon recommendation of the Agency. The Administration believes it is opportune to amend the City Center/Historic Convention Village Redevelopment Area Plan in order to reflect existing conditions and future plans for the area, as contemplated in the Preliminary Proposed Master Plan submitted by Zyscovich, Inc., on September 21, 2001, which was accepted in concept by the City Commission on October 17, 2001, and revised on May 16, 2002. The Zyscovich Plan addresses the needs of the Convention Center and the New World Symphony, recommends parking and transportation enhancements, respects the need for an open space public plaza, identifies possibilities for gateway entrance features, evaluates the need and location of a charging facility for the Electric Shuttle, and complements the adjacent urban relationship and historic districts.

Subject to its adoption by the City Commission, the Amendment is scheduled to go before Miami-Dade County's Economic Development and Housing Committee on July 18, 2002, for consideration and recommendation to the Board of County Commissioners, which is expected to vote on the proposed Amendment at the July 23 County Commission meeting.

The Administration recommends that the Mayor and City Commission pass and adopt a resolution accepting the proposed Amendment to City Center Historic Convention Village Redevelopment and Revitalization Area Plan.

AGENDA ITEM B7A

DATE 6-19-02
COMMISSION MEMORANDUM

To: Mayor David Derman and  
Members of the City Commission

From: Jorge M. Gonzalez  
City Manager

ADMINISTRATION RECOMMENDATION

Adopt the Resolution.

ANALYSIS

Section 163.361, Florida Statutes, provides that the governing body of the Redevelopment Agency may amend the Redevelopment Plan from time to time, upon recommendation of the Agency. The Administration believes it is opportune to amend the City Center/Historic Convention Village Redevelopment Area Plan in order to reflect existing conditions and future plans for the area as contemplated by the master planning initiative underway by Zyscovich, Inc.

Redevelopment Plan Update

On April 18, 2001, the City Commission authorized the Administration to enter into contract with Zyscovich, Inc., (Consultant), to develop a concept plan for the 17th Street and Washington Avenue surface parking lots, incorporating the proposed expansion of the New World Symphony (NWS). Due to the significance of this site and the impact of future development alternatives contemplated thereon, the Consultant’s scope was expanded to evaluate the site in the context of its importance to the surrounding core area of the City and to develop an updated Master Plan for City Center/Historic Convention Village Redevelopment Area in the process.
On September 21, 2001, Zyscovich, Inc., delivered a site utilization report and preliminary concept plan, entitled "Preliminary Proposed Master Plan", that addresses the needs of the Convention Center and the New World Symphony, evaluates parking and transportation requirements, respects the need for an open space public plaza, identifies opportunities for gateway entrance features, evaluates the need and location of an Intermodal Center, and complements the adjacent urban relationships and historic districts. The Plan was approved in concept by the City Commission at the October 17, 2001 Commission Meeting, and was revised (as to form) on May 16, 2002. This preliminary concept plan not only reflects updated conditions in the area since the inception of the original City Center Redevelopment Plan in 1993, but also continues to function as a working document to finalize outstanding urban planning issues essential to the completion of the Plan. These issues, which are being addressed by Zyscovich as part of its ongoing scope of services, include streetscape improvements for Convention Center Drive; streetscape improvements for 16th Street east-west corridor; potential re-zoning of 17th Street; analysis of the 21st Street Community Center and establishment of Dade Boulevard Traffic Circles; determining the location and phasing of a garage and charging facility for the Electrowave; the development of the preferred lots to address specialized meeting/exhibition space and parking requirements for the Convention Center; the short and long term plans for the location and development of the Garden Center; site development analyses relative to the New World Symphony expansion plans; concept plan development for Pennsylvania Avenue garage façade retail; resolution of Drexel Avenue closing; Lincoln Road streetscape issues; and streetscape design changes related to the bus route changes.

It should be noted, that this Master Planning initiative involved extensive public outreach and consensus building, in the form of community meetings and one-on-one planning sessions with individual citizens, community leaders, government officials and members of the Administration. A chronological listing of the public meetings is included as an attachment to this memorandum. While the Master Plan received the full endorsement of those organizations, boards and committees identified on the attached list, there are certain individuals who either oppose the plan or oppose specific elements of the plan for reasons which include but are not limited to the following:

- Concern with loss of parking adjacent to Lincoln Road and within close proximity of the hotels on Collins Avenue.
- Concern with dedicating prime city property for use by a cultural facility.
- Concern with the City’s ability to maintain the proposed park, specifically as it relates to the homeless.

Recommendations by some of these same individuals include leaving the 17th Street surface lots as is, making Pennsylvania Avenue the primary entrance to Lincoln Road and incorporating the New World Symphony’s proposed Sound Space facility into the existing 5-story parking garage.
On May 29, 2002, a public hearing was held to consider adopting certain amendments to the City Center Redevelopment Plan to include A) incorporating, by reference, the Preliminary Proposed Master Plan for the 17th Street Surface Lots, prepared by Zyscovich Inc., dated September 21, 2001; B) developing and implementing community policing innovations within the City Center Historic Convention Village district, as provided for in sections 163.340, 163.350, 163.356, 163.360, 163.361, and 163.370, Florida Statutes; and C) participating in the Miami Beach Business Assistance Program for the purpose of business recruitment within the Redevelopment Area, to the extent legally permissible under Chapter 163 Florida Statutes and to the extent that funding is available.

During the Hearing, concern was raised that the proposed Master Plan did not contain a detailed statement of projected costs associated with capital projects contemplated in the Plan, as provided for in Section 163.362(9) Florida Statutes. As such, the City Commission requested a re-hearing on Amendment A, upon submittal of these estimates by the Administration. The Commission did adopt Amendments B) involving Community Policing and C) involving the Business Assistance Program. The adopting Resolution was amended to reflect this action. The new hearing to consider Amendment A, was set for June 19, 2002. The Administration has since prepared a detailed cost estimate which has been incorporated as an Appendix to the Master Plan.

Redevelopment Plan Amendment Process

On May 10, 2002, the Administration gave a presentation on the proposed Amendment to the County’s Tax Increment Finance (TIF) Committee, which voted to recommend in favor of the Amendment. Subject to the adoption of the proposed Amendment by the City Commission, the proposed Amendment will be presented to the County’s Economic Development and Housing Committee on July 18, 2002. Provided the proposed Amendment receives a favorable recommendation, the item will be heard by the County Commission at its meeting on July 23, 2002.

As such, the Administration recommends adopting the Proposed Amendments to the City Center Redevelopment Plan.

STAFF RECOMMENDATION
It is recommended that the Board of County Commissioners (the Board) approve the attached amendment to the Miami Beach City Center/Historic Convention Village Community Redevelopment and Revitalization Area Plan. By approving the amendment, the Board will delegate to the City of Miami Beach (the "City") the power to implement Community Policing innovations within the City Center/Historic Convention Village redevelopment area. It is further recommended that the Board authorize the County Manager to execute the First Amendment to the Interlocal Cooperation Agreement between Miami-Dade County (the "County") and the City of Miami Beach.

MANAGER'S BACKGROUND
On March 30, 1993, the Board adopted the Miami Beach City Center/Historic Convention Village Redevelopment and Revitalization Area Plan (the "Plan") through Resolution No. 317-93. On November 23, 1993, the Board approved an Interlocal Cooperation Agreement between the County and the City of Miami Beach (the "Interlocal"), which establishes the terms and conditions for the implementation of the Plan. Section 163.361 Florida Statutes, provides that any time after the approval of a community redevelopment plan by the Governing body, it becomes necessary for desirable to amend or modify such plan, the governing body may amend such plan upon recommendation of the Redevelopment Agency. On June 11, 2003, the Miami Beach Community Redevelopment Agency (the "Agency") adopted Resolution No. 454-2003 which recommended the Plan be amended, to incorporate the development and implementation of community policing initiatives. Also on June 11, 2003, the City Commission of the City of Miami Beach adopted Resolution No. 2003-25237 which approved and adopted an amendment to the Plan. The City Commission also adopted Resolution No. 2003-25241, on June 11, 2003, amending the Interlocal Cooperation Agreement.

In order for the City to fully implement the amendment to the Plan, it is necessary for the Board to approve and adopt an amendment to the Plan in accordance with the provisions of the Act. The existing Interlocal must be amended to delegate to the City the power to implement community policing innovations within the Redevelopment Area in accordance with an approved Plan. Chapter 163.361, Florida Statutes, enables Community Redevelopment Areas to implement and fund community policing innovations, defined as a "policing technique or strategy designed to reduce crime by reducing opportunities for and increasing the perceived risks of engaging in criminal activity through visible presence of police in the community, including, but not limited to, community mobilization, neighborhood block watch, citizen patrol, citizen contact patrol, foot patrol, neighborhood storefront police stations, field interrogation, or intensified motorized patrol."

The Agency's proposed community policing program calls for implementing and funding new or enhanced policing initiatives which include the assignment of police officers to permanent areas of responsibility or beats. Police officers will work to form partnerships with residents and businesses, to jointly solve crime and disorder problems, and share ownership of the solution strategies. The initiatives would be designed to address specific issues indigenous to the sections/neighborhoods in the Redevelopment Area. Emphasis will be placed on maintaining a highly visible presence and addressing the quality of life issues within the geographic boundaries of the two districts. The staffing plan designed to address the objectives of the community policing initiative has the following characteristics:

Create a Community Policing Problem Solving Team, consisting of one sergeant and six officers for the City Center/Historic Convention Village Redevelopment Area.
Develop Task Forces to address specific problems utilizing $500,000 in designated overtime.
Create Community Policing and, business and resident partnerships through innovative strategies.

On January 23, 2003, this proposed amendment to the Plan, together with another amendment, providing that the plan incorporate by reference the Proposed Master Plan for the 17th Street Surface Lots, prepared by Zyscovich, Inc., on September 21, 2001 and revised as of June 19, 2002, to reflect certain input by the Mayor and City Commission, was presented to the Board. The Board only adopted a resolution approving the amendment involving the Master Plan for the 17th Street Surface Lots. In a December 11, 2002 address to the Miami Beach City Commission in connection with the City's proposed amendments to the Redevelopment Plan and Interlocal Agreement, which were pending approval by the Board of County Commissioners, Commissioner Barreiro expressed concern that the proposed community policing element was going to provide funding for existing levels of police service in the City Center Area, thereby supplementing the City's General Fund expenditures. Commissioner Barreiro also proposed to add two County Commissioners as voting members to the Miami Beach Redevelopment Agency, to provide oversight in the policy decisions of the Agency. The City Commission declined this proposal.

At a meeting of the County's Tax Increment Financing and Coordinating Committee (the Committee") held on June 2, 2003, the Agency made a presentation of its proposed amendments to the Redevelopment Plan. While the Committee was supportive of the Agency's proposal, certain members expressed the following concerns and recommendations:
Case for Community Policing - the Committee, prior to the meeting, had asked for comparative crime statistics, comparing activity in the redevelopment areas to the rest of the City. Since the Police Department's records management system is in the process of being updated, this information could not be provided. Committee members emphasized the need to establish a system to track and monitor the effectiveness of community policing in the Redevelopment Areas.
Overtime - the preliminary proposed community policing budgets for the City Center and South Pointe contain substantive overtime allocations. The Committee asked whether the Agency could contract directly for off-duty police, in order not to incur overtime costs. Concern was raised regarding the City's ability to track and monitor overtime expenditures as being specific to officers assigned with the redevelopment areas. The Committee was informed that, due to the fact that the Agency is staffed by City personnel, it is probable that the Fraternal Order of Police may take issue with a City entity contracting separately for police services.
Monitoring expenditures and determining effectiveness of the investment in Community Policing - the Committee wanted to establish a mechanism to monitor the investment in community policing, either in the budget process or in the form of an annual report. The Committee was informed that the community policing budget is included as a line item in the respective budgets for each of the two Redevelopment Areas, which are already subject to the review and approval of the County.

On June 13, 2003, the Agency again met with the County's TIFC Committee with responses to the issues and concerns raised by the Committee. The Agency's response included some preliminary area specific crime data, stating that their City Attorney would not agree to the CRA contracting off-duty police services directly, and stating that they would put in place adequate budgeting, monitoring and reporting processes for the policing program, before their upcoming FY 2003-04 budget submission. The Committee in a unanimous vote recommended that the proposed amendments be forwarded to the Board for approval.

Economic Analysis Impact

The City proposes to fund these additional activities in the FY 2003-04 budget of the City Center District a cost of $2,159,544. However, this has no immediate financial impact to the County, as the County's annual payments to the Redevelopment Agency is predetermined, and based on the growth in taxable property value in the redevelopment area. The agency is merely shifting the use of these proceeds from one need to another.
