## **Miami Beach Named to 100 Best Fleets in Americas for Third Straight Year**

— *The city ranks among the very best of 38,000 public fleets in North America* —

**Miami Beach, FL** – The National Association of Fleet Administrators has named the City of Miami Beach to its NAFA 100 Best Fleets in the Americas for the third year in a row. The honor was announced at the organization’s 2024 Institute & Expo in San Antonio on April 23.

“Our Facilities and Fleet Management Department is responsible for nearly 1,400 vehicles and other equipment,” explained Miami Beach Interim City Manager Rickelle Williams. “I am proud of the dedicated team of professionals who worked hard every day to earn this well-deserved honor.”

Miami Beach is on target to achieve an ambitious goal of converting half of the entire municipal fleet to a combination of hybrid, plug-in hybrid and electric vehicles by 2025. The Miami Beach City Commission previously adopted a resolution declaring climate change to be caused by “human activity” and pledged to achieve net-zero greenhouse gas emissions by 2050.

The NAFA 100 Best Fleets program recognizes peak-performing fleet operations among the 38,000 public fleets in North America based on “12 criteria of excellence,” including accountability, collaboration and doing it right the first time. NAFA members control more than 4.8 million vehicles that are driven an estimated 84 billion miles each year and they manage more than \$122 billion in assets.
